

CONTACTS IN SKYPE

Once you have finished setting up Skype your screen should look like this. The next thing you are going to want to do is add a contact so you can start video chatting with people. To do that click add a contact at the bottom of your screen.

Next type in the person you would like to add as a contacts Skype username or their email.

Add a contact

If they're on Skype too, calls are free.

Enter all the details you know:

Email

Phone number

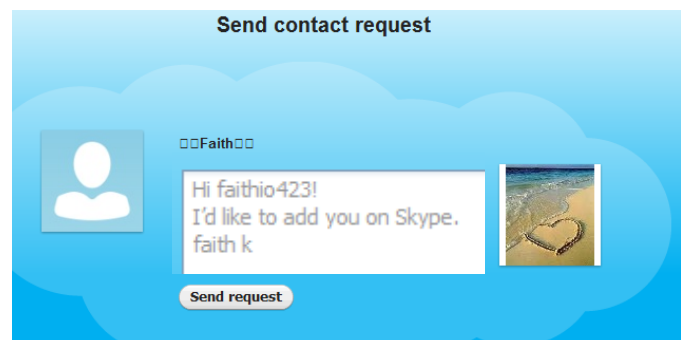

Full name

Skype Name

Skype will then search for the person you're looking for. Sometimes two people may show up. If so click on one of the people and check their username. If their username matches what you friend told you then it's them. Click add contact.

Skype will then automatically write this message. If you would like to add more you may. Then click send request.

Video call Call Phone +

faith k Hi faithio423! I'd like to add you on Skype. faith k 2:24 PM

SMS Type a message to faithio423 here

Even though you added this person as a contact you will not be able to see their profile picture until they accept you request.

If they haven't accepted your friend request yet you can still IM them.

faith k Hi faithio423! I'd like to add you on Skype. faith k 2:24 PM

hey whats up? 2:25 PM
